

AFTERCARE INSTRUCTIONS FOR BATHTUB, SINK, & TILE

1. **DO NOT** use the tub or sink for 2 days after the refinishing date.
2. Tub **MUST** be recaulked after the 2 day drying period & prior to usage.
3. Use a bathmat with **NO SUCTION CUPS**. Remove the bathmat after each use.
4. Do not place stick-ons on the surface of the tub or tile. Permanent stick-ons will pull up the refinished surface when removed.
5. To clean the bathtub, sink, or tile, use a **NON- ABRASIVE CLEANER**. The label should read "Safe for use on fiberglass/ acrylic surfaces." Remove cleaner directly and thoroughly after use.
Recommended cleaners:
 - a) *SC Johnson Scrubbing Bubbles*
 - b) *Scrub Free- Soap scum remover*
6. Do not leave bottles, soaps, or other containers on the bathtub. Chemicals in the products may cause the refinished surface to peel.
7. Do not use any products in the tubs, which contain caustic chemicals, hair dyes, or bleach.

Following the above instructions will help maintain the integrity of the refinished surface.
